Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3, 10, 63, 65, 66, 67 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Ackeret (577306). Ackeret discloses a storage device comprising a media storage container as shown in Figures 9, 12, 13-15. A tray, or in this case the outer container, comprises a bottom and two sidewalls and encloses partially over the media storage container. A retaining means is shown in Figure 1 to retain the case within the tray. Also, there is sufficient room to store a thin label in between the case wall and the tray wall. For example, the label could be attached to one of the case wall or interior tray wall. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the outer container transparent, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416. Also, it would have been obvious to determine the size of the storage device through routine experiments.

Applicant's argument has been considered. However, applicant incorrectly interpreted the rejection as based on reference 4,763,962 instead of 577306 issued from the Commonwealth of Australia. Hence, reply with respect to applicant's argument is inappropriate at this time and the rejection will be maintained.

Allowable Subject Matter

3. Claims 4-6 are allowed.
4. Claims 53, 54, 64, 68-69 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
